Join CUP for a happy hour to celebrate our new Fellow for Change in Design, Elijah Bobo, and to welcome him to the NYC design world.

Elijah is a recent grad of Eastern Michigan University, and the third Fellow in CUP's program, which was created to support the development of a pipeline of talented individuals from historically under-represented communities into the design fields.

Join us for a beverage (\$5 well drinks!), get to know Elijah, and help support the Fellowship as we all work together to make design a more diverse, equitable, and creative field.
